LAWAL OLUWAFEMI IBRAHIM

WEB DESIGNER | FRONT-END DEVELOPER

Phone: 08021291539 | Portfolio: portfolio-chi-sepia-88.vercel.app

PROFILE

Web designer and front-end developer focused on building attractive, responsive and easy-to-use websites. Experienced with HTML, CSS, JavaScript and Bootstrap, and currently learning React. Comfortable taking a website from initial layout to deployment, and interested in opportunities to contribute to real client projects.

TECHNICAL SKILLS

Front-end: HTML5, CSS3, Bootstrap, basic JavaScript, React (learning)

Tools: VS Code, Git, GitHub, Vercel, Netlify

Other: Responsive design, UI styling, website animations, video editing

SELECTED PROJECTS

Fancy Lips — E-commerce website
Created a responsive product website with shopping cart interactions and a WhatsApp ordering flow.

Ember's Delight — Restaurant website
Built a restaurant-themed website featuring visual sections, calls to action and responsive layouts.

Phemcard — Web project
Developed and published a front-end website project as part of a growing portfolio.

Personal portfolio — LA-CODE
Designed and deployed a portfolio to showcase front-end development work and projects.
